

## R10 EPA Exceptional Event 8<sup>th</sup> Annual Remote Meeting Agenda

Thursday, June 3

10:00 am – 12:00 pm PT

Microsoft Teams meeting: [Click here to join the meeting](#) on your computer or mobile app

Or call in (audio only) + (b) (6) #

As part of our ongoing Exceptional Events coordination efforts, we are holding our annual meeting with EPA R10 and partners in Alaska, Idaho, Oregon, and Washington.

**10:00 – Welcome, Introductions & Roll Call** (Claudia Vaupel)

**10:15 –Registration Review & Uploading Submissions to SPeCS for Exceptional Events /  
Exceptional Events Submission and Tracking System** (Denise Scott)

**10:45 – Status of Current and Upcoming Exceptional Event Demonstrations** (Claudia Vaupel)

- Received by EPA
  - Active: None at this time
  - Not Active: 2017 wildfire demonstrations for Yakima (PM10) (LMP in progress) and Cache Valley (PM2.5)
- Potential Upcoming Demonstrations through May 2022

Area & Pollutant	Event year & event type	One or multiple days	Action with regulatory significance	Notes
Oakridge, OR PM2.5	2020 wildfires	multiple days	redesignation, maintenance plan	EPA reviewed draft
Fairbanks, AK PM2.5	2019 wildfires	multiple days	serious attainment plan	planning to submit draft for EPA review
Oakridge, OR PM10	2020 wildfires	multiple days	redesignation, maintenance plan	
Klamath Falls, OR PM2.5	2020 & 2018 wildfires	multiple days	redesignation, maintenance plan	Will submit 2018 EE demo, might not be reviewed by EPA b/c not reg sig, but mgmt. wants to have it submitted. Will not have EE demos for 2019, so not concerned about mitigation plans.

**11:15 –Discussion Topics** (All)

- Question from Idaho (that also impacted Oregon) about increased monitoring frequency resulting from wildfire events that were not considered to have regulatory significance.
- Question from Spokane about looking for efficiencies with EE demonstrations for wildfire smoke events that affected an entire state. Can one demonstration be submitted for all of WA, and the locals have a sub section that explains their local AQ experience? Same with OR, ID, AK. Or if the wildfire smoke affected all of R10, then one demo with state/local sub section. Can the demonstration be for an entire wildfire season (multiple fires are different times)?

**11:55 – Wrap up / Next Steps**
